

Carrier Bags

Laminated / Un Laminated

POLYDIME

Polythene has been one of the most cost effective methods used to carry almost any product around for decades. At Polydime, we have perfected the art of making a variety of bags based on specific customer requirements interms of design, print quality and material mix targeting any industry or product to be moved.

POLYDIME has been associated with the plastics industry since 1998 producing Polythene in roll, bag and pouch form, Alkathene and drip irrigation pipes, multilayer lamination films and pouches. We take pride in being one of the sought after names in the plastics packaging industry in Sri Lanka & Internationally.
